(From Singapore Papers) THE FINANCIAL CRISIS.

LONDON, December 10th. There is a commercial crisis in America. Many failures have taken place; money is siringent, and stocks are depressed. A financial crisis is feared in London, and the Cabinet are discussing the situation.

Later. December 11th. The feeling with regard to the financial situation in America is much more confident. Several measures all directed to increasing the currency and relieving the stringency of money have been introduced into the Senate.

MR. PARNELL. M. P. On arriving at Dublin Mr. Parnell [was] received [with] intense enthusiasm.

STRANDING OF P. & O. STEAMER. December 12th.

The P. & O. Company's, steamer Nepaul has stranded on Plymouth breakwater. The accident occurred during a dense fig; the cargo bas been salved.

> THE MONEY CRISIS. December 16th.

The American financial situation has materially improved, it is believed that the Washington Treasury with a view of relieving the stringency in the money market, favours the purchasing of the whole stock of thirteen million ounces of silver and a further amount equalling the annual withdrawal of notes, thereby increasing the currency thirty millions.

[The price of silver has risen to 494 per ounce, being a rise of 4d. since November 18th, when the price had relapsed to 45.]

A PUBLIC meeting at Buenos Ayres has demanded the impeachment of ex-President Celman and his partisans for fraudulent practices. The trial, if pushed, may develop some very interesting points, including the annual disappearance of about \$15,000,000 from the customs revenue: the manipulation of land notes, and the way in which Celman made \$40,000,000 during a few years of office-holding.

NOMINATIONS for the Hongkong Derby Hongkong Club on Saturday next, the 27th inst The conditions, detailed in an advertisement in another part of this issue, are exactly the same as of late years. Mr. P. Ryric-said he thought that the report on the Estimates had been dealt with sufficently for the present. He would lay on the table a memorandum which he had reason to believe would be forwarded by his Excellency to the Secretary of State.

Mr. Ryrie then laid the Memorandum of the unofficial members on the table. It was read by the Clerk of Councils and ran at follows :--ESTIMATES FOR PUBLIC WORKS, EXTRA-ORDINARY, FOR 1891.

In connection with the estimates for 1290 the Right Honorable the Secretary of State, Lord Knutsford, addressed a most important despatch to the Government dated 18th April last. We are fully convinced of the apprepriateness of Lord Knutsford's views and opinions therein expressed and that they apply, with equal if not greater force, to the estimates for 1801. Be much so that we desire to draw particular attention to the concluding paragraphs of the said despatch,

Para : 11 teads :--

"I do not wish to imply any doubt that the representative is also credited with possessing works on a perhaps unnecessarily liberal scale,

without due regard to the capabilities of the Public Works Department, the relative importance of the works, and the possibility of defraying the total expenditure to which the colony will thus be ul imately committed."

Para: 12 reads :-"I shall be glad to receive at an early date an accurate statement showing all the public | medium of the Committees named. works which are in contemplation, with the estimated cost of each, the amount spent on each up to the 31st December last, and plans and estimates have been carefully prethe amount it may reasonable be expected that the Public Werks Department will be able to spend on each during the year. I need scarcely point to the fullity of placing on the estimates sums largely in excess of the powers of that Department to make use of. The statement requested should include details and explanations of the item for "Sanitary Works" which was originally \$1,500,000 (of which about \$500,000 has been spent), and as to which no information has ever reached me. The public works to which the Colony is actually committed should be distinguished, and a statement made as to the comparative urgency of all. It seems that even if funds are forthcoming it will take many years to carry out the programme now contemplated, and unless some works are altogether postponed others of pressing necessity must be delayed."

And Para : 13 reads:-" Pending the receipt of the information above asked for. I limit my approval to those works to which the Colony is already committed, and to those which are deemed to be of urgent

In the minute of his Excellency the Officer Administering the Government on the Estimates for 1801 dated 20th October last, paragraph 7

"The revised estimated ordinary expenditure for 1801 is \$1,674.780. The estimated extraordinary expenditure \$920,279 Instead of \$804.279 as stated by the Officer Administering the Government a short time ago, some omissions having been made in the draft estimates as originally prepared. This makes a total expenditure of \$2,595,059. Instead, therefore, of having a balance of \$46,000 on hand at the end of 1801 there is an estimated deficit of about \$100,000."

"But the greatest increase on expenditure

"As a proof of the continued increase of expenditure under this head it is worthy of remark that in the year 1875 the amount expended on the Surveyor General's Department, on Public Works and buildings, roads, streets and bridges amounted to \$160.642 whereas for 1801 the campaign was therefore burst up, and the waiters | estimated sum for the Surveyor Generals, the are as halry as ever. It seems to us now a most | water and drainage and the Sanitary Departinsolent attempt at dictation; but I am old ment amounts to no less than \$920.279 while enough to remember when even to officers in the total amount estimated for the construction of such public buildings as have actually moustaches were forbidden, and no civilian been commenced or are in contemplation i \$2,540,267, which will have to be further increased should a new gael be constructed."

Inview of the above very clearly expressed and decided opinion of the Secretary of State regarding the estimatee for 1900 and the great and growing increase of public works expenditure pointed out by H.E. the Officer Administering the Government in the minute quoted we deeply regret the continuance of the practice, hitherto obtaining on the part of the Government when the outlay was on a limited scale, of asking for such large votes of money without providing us with more complete information and more reasonably detailed statements respecting the proposed public works than those which has been customary to supply. Government has invited us to sanction it spending upwards of \$020,000 during 1891. As an instance of how matters have been

carried on we may be permitted to here; quote an extract from the Surveyor General's letter of 17th June last to the Acting Colonial Secretary !-"I attempted to: prepare a satisfactory estimate for the new year, but failed, for the simple reason that for some of the works included in the estimates for 1889, which had to be carried on to the present year, no detailed designs or estimates, so far as I can accertain, had ever been prepared, and it was hopeless without assistance, in the very limited time available before the date fixed for sending in the estimates. to attempt to prepare all these estimates and

And, further, the Surveyor General's letter of 14th August last, also to the Acting Colonial Secretary, parat 2 reads ;-

"The preparation of these estimates has involved an unusual amount of labour owing to the introduction of the new form of estimate and to the practice which sppears to have prevailed in the past of sanctioning and commencing works before detailed drawings and estimates had been prepared." (1997)

We carnestly and respectfully recommend that in the case of any new work proposed the Surveyor General should in all future cases lay a statement before the Public Works Committee, giving the fullest details and estimates. The Public Works Committee would then consider each one, and report upon it to the Finance Committee's and no vote should be asked from Council until the fullest details of colony, provided the revenue continues to remain every nature had been obtained and considered expansive, can afford to construct in a substan- during these preliminary stages. The Surveyor-General stated in Finance Committee that 'contracts have been entered into for the foundations, but not for the super-. structure—approximately, about \$37,000. It is almost impossible to make a fixed contract for the cost of laying the foundations because so much depends upon the nature of the foundation. It was not let for a lump sum but it is nevertheless a contract. It would be impossible to say exactly what the amount would be. The work is paid for according to how much is done. I do not know how you could let it for a lump sum until you know what you have to do. I have endeavoured to explain, that when the contract is let under the system of measurements it is the Engineer in charge who measures up the work. -The Engineer in charge of the work is respon-

sible for all measurements of which he has charge, etc." "We are strongly in favour of contracts being made for a lump sum. The colony is committed to an unknown and unlimited expenditure if the contract sum is not fixed beforehand.

We would urge the imperative necessity for all measurements being made by the Engineer -not by the overseer-and that the rule be not in any one instance departed from.

We cannot but regard the increase in the Estimate from \$235,000 to \$270,000, proposed to be spent on this work, as excessive and extravagant, and are decidedly of opinion that a reduction in the amount, consistent with efficiency and the Colony's requirements, can be offected.

SITE FOR PROPOSED NEW WESTERN MARKET. We are sorry to observe that little progress has been made with this work, though it was commenced as long ago as 1883. We recommend that the undertaking be proceeded with, with as little delay as possible, so as to permit of the construction of the proposed new western market. A cturn on the heavy outlay to be incurred would then be obtained, and a considerable sum would be realized for the site of the present western market.

NEW ROADS AND PRIPARATORY WORK,

KENNEDY ROAD SITES. We carriestly hope that the difficulties with the military authorities will soon be got over, to enable the proposed work to be proceeded with with a view to disposing of the desirable building sites which will be then opened up.

GAOL EXTENSION. .The erection of a new gaol is in our opinion undesirable and unnecessary innamuch as the present building has proved in the past most healthy and is in good repair. We think it is capable of extension in such a manaer as to provide for all necessary requirements. Being informed that the two commissions which last We think such sums should be voted sat on the question had arrived at the conclusion cautiously and with great circumspection. We cannot, however, but think that the sum proposed to be spent is on altogether too extravagant a scale.

PUBLIC LAUNDRIES. We think the proposed experimental scheme worthy of a fair trial. It has been strongly recommended by the Sanitary Board. The pecuniary risk is small, while the possible advantages to be derived are great.

CIVIL HOSPITAL, STAYF QUARTERS. We think it well to quote the Surveyor-General's own words from his letter of 17th June last to the Acting Colonial Secretary, para. 10:-"The increase in the estimate of the quarters for the Hospital Staff from \$43,000 to \$75,000 is thus accounted for. On my arrival I found the foundations practically completed to the level of the ground floor. On these foundations, an expenditure of no less a sum than \$12,800 had becarincerred. The designs were prepared and it was practically impossible to deviste from them to any considerable extent without incurring additional expense in sitering the foundations. As the Government was committed to the work there appeared no other course open than to complete them as economically as possible, and the contract was let by public tender. I can however, but regard this building as altogether on too large, and extravagant a scale for the purpose for which it is intended."

If (casible, we swongly urge the conversion of part of these new quarters, which are to cost such a large sum, into an addition of the hospital.

POLICE STATION, KENNEDY TOWN. We recommend that this Station should be occupied as soon as possible. The building is to cost apwards of \$41,000, and the Surveyor General reports that it is a work of primary importance. If not occupied the building is certain to deteriorate and ultimately further expendituro will be necessary.

RECONSTRUCTION OF GOVERNOR'S PRAK RISIDENCE

We are of opinion that a new Summer resi lence at the Pesk is necessary, the present being wholly unsuitable. The vote of \$40,000

Hongkong, 20th December, 1890. To His Excellency The Officer Administering

the Government of Hongkong. His Excellency said that the document alaid on the table, with a view to having it is forwarded to the Secretary of State, would, he felt swe, he sent to its desired destination by the Governor, Sir William des Vœux, with much the sure. Howas glad that the unofficial minmhers had adopted the course pursued in drawing up he said dicument in lieu of the proposed addenda to their report on the Estimates. The course pursued would facilitate tic despatch of business and leave, little or nothing undone that should have been done

ere the Governor returned to these shores.

His Excellency then in a very lengthy and explanatory address spoke upon all the points reland with memorandum. As to the complaint that there was not sufficient explanation in segard to the Public Works Extraordinary he was under the impression that the three reports of the Surveyor-General fairly covered the ground. As to the necessity of improvement in the accommodation of prisoners at Victoria Gaol there could be but I ttle doubt. The way in which prisoners were confined for debt was not such as was in keeping, with the spirit of the times in which we now live, and it would be a question for condition whether such a custom should be continued. A good many leading citizens. with whom he had conversed on the subject thought it could hardly be abolished. If, however, it were continued there was no doubt but that reasonably suitable accommodation for debtoramust be provided. If a citizen contracted fraudulent debts a remedy at law was provided here as eleewhere. As to the question of cubic style. For the Association Mr C. Ford made a space accessary for each prisoner he had highest possible score at 500 yards. Appended ascertained that as many as eight Chinese are the full scores:prisoners were confined in cells which were built to accommodate but three. That was directly contrary to the spirit of the Public Health Ordinance, and, legally speaking, the Superintendent | Private Hood of the Gaol could be prosecuted and punished for it. He had sent certain propositions to the Col. Segt. Scott Secretary of State in respect to whathe considered, after personal inspection and careful inquiries, were necessary improvements of the Gaol. Until Lord: Knutsford's reply thereto was to hand it would be useless to submit plans and specifications to the Council-that would be done in due courte. When he did so later on he felt sure that the Council would willingly vote the required sum to meet the expenditure. Referring to large the gool, his Excellency sold that the futility of the present system of deportation was only too manifest, and that the subject of the permanent expulsion of a certain class of criminals would no doubt meet with the careful and prompt consideration of the Governor upon his return here. His Excellency concluded by saying that, as in the past so in the future he would do all that was possible to provide members with all particulars of sums upon which their vote was required. He could see no objection to such a course being followed and thought that the Governor would

not object to it either. The report on the Estimates for 1801 was formally adopted, the sum of \$100,000 being alone dissallowed.

THE "NAMOA" PIRACY AFFAIR. next meeting of Council he would ask :-- "What reason the Government had in depatching H. M. S. Linnet in search of the pirates who looted the Namoa on the 10th instant ?"

His Excellency explained the reason of delay in the despatch of the Linnel at considerable length, and said that he preferred to do so at once rather than keep the public without the information for another fortnight. In the course of his tematks he said that at to a.m. on the 11th instant Commodore Church called on him and reported what he had heard on the subject. He (the Acting Governor) suggested the despatch of a gunbout and the Commidore concurred in that plan. He told the Commodore that before despatching a gunboat he would communicate with Mr. MacLevey Brown, Commissioner of Customs, as that official might supply useful information of the part of the coast where the piracy was committed. Mr. Brown called on him promptly and agreed to despatch Capt. Stowart, of the Chineso revenue cruiser Kaipen, on board the Linnel. He then wrote a note to the Commodore That was at It a.m. on the little instant. During the course of the afternoon the Commodore sent him an official despatch stating the. "Whereas it has become necessary to make | us had themselves mutialed, and were shooting they shot vigorously at their officers, they brave fellows six or eight amongst a thousand matter before such matter is brought into final expended as kereinafter, specified; that is to were obliged to take and so when we reached their camp-on the road immediately in front of which lay the poor sergeant on his face, a little dark streak wending ominously from under his head over the white kunker-all the officers but one were safe with us, only one, Stack, Lieutenant be then was,-I date say"it alive he is a General now, -was missing and thinking that he might have been carried off by the mutineers and killed, by the way we followed up the line of their retreat, hoping to recover his body. Very soon, however, we caught right of the man himself riding down towards us at a smart processed when by dint of shouting, and riding towards him we did attract his attention, he condescended to join us at a slow center. Then it appeared, tim when the mucky accurred—it was only the infantry of the Contingent who fired-he, being at the other and of the line, and bring very short sighted, and finding all his men, the cavalry, in dine, but him effat their head, also supposing from the shooting that the mutineers were attacking the camp, giving the word, he charged off with all his men in the direction of the main rebel carno. Thus, in consequence of his short-sightedness.

> loin the enemy. But though they were mutineers against the Gayernment of the Queen, they were not lost to Passed the Legislative Council of Hongkong, and sense of hongur, and when they realised the mistake Stack was making one of the native officers saluted and said. "You must not come with us Sahib. We have mutinied. We would not hurt you, but who can say what some of those people there may do. You must go back, Sahib. You must go to your own people, where you will

he could not distinguish between friends and

focs, and put himself at the head of men who

had mutinied against the authority of our beloved

Queen and actually went; away with them to

be sufe." Ah | my friends, such honour was to be found amongst Indian mutincers, but when do these Tory mutineers against the Government of the peop'e rise to such a pitch of chivalry? When do you find them thus warning the ignorant and unsophisticated folks who, in their shortsightedness, are straying into their camp? When do you find them saying to these heedless lambs of the people who are wandering into the pack of the wolves: "Go back for we are your natural adversaries. Go back go back to your own people where you will he safe !"

As for Stack, when he did join us, and we said : "Where the dickens have you been ?" he only gave an extra grew to the glass that always nestled in his right eye and said, " Well you see I went of with the wrong fellows."

BANGKOK NOTES.

We learn from the Government Gazette that His Majesty the King, on the 20th November last, passed a law limiting, after the English custom, the period during which insolvent debtors may be imprisoned. The new law is to come into force on the first day of the Siamese new year. The famous Fleet and Marshalsea prisons in England, so familiar to all who have read Dickens and sympathised with Mr. Pickwick and "Little Dorrit," were only abolished at a comparatively recent date, and now we are shortly to see the last of the system

The prospects of the rice-crop would, after all appear to be more cheering than was expected. The excessive drought in the latter half of September and in October and November did not, it seems, injure the rice to any very-great extent, and the most seriously affected tracts are said to be in the Raheng and a few surrounding districts, where a very small crop is expected. Exclusive of these and some other less affected tracts, it is thought the crop will be a good one. The actual out-turn luty on mulin which has been imported into the sufficiency or otherwise of the minfail in

duty of Tis, 3 per Tis. 100 worth. The import of rice, however, always depends largely upon the latter half of October-and sometimes in November—the period embracing the third critical period in the growth of the crop-and as we lately had some heavy showers up-country, it may be anticipated there will be no real scarcity, as much hope is placed upon the seed

sown in September. About two o'clock on Saturday morning Luang Kosab, a Siamese gentleman residing in the neighborhood of the Bangkok Iron Works... was paid a complimentary visit by a number of armed Chinese. The pirty, however, met with an ambuscade in their approach to the premises and had at once to relient, which they did in such haste that they left behind a boat and an old gun with ammunition, now in the possession of the repellers of this night attack Mr. Wright, the manager of the dering of politicians by a little incident which I from Works, who lives close by, hearing telling him of what had been decided upon, occurred during the Indian Mutlny, and which is the affiny came upon the scene and with a revolver contributed to increuse the speed of the departing, inviders of Luang Kosak's premises. The event has created quit a sensation in the locality, and imbued the inhabitants the Acting Governor, did not ask the Commodoro 1857, in the very centre and heat of the great | thereabouts with quite a martial air, so much Indian Mulipy, on the ere of the sangulary, so, indeed, that a sliong thalank of people walted up till a late hour on Sunday porring in stated the hour at which the gunboat we turned, two-guns of the 23rd Light Field the hope, that the party would return for their bout, etc. Wo would warn people to give the
